Comments by the CEO

Our number one priority for the year has been to deliver margin improvements and to start to implement our divisional strategies to drive profitable growth forward. Group earnings improved significantly, and we report a solid EBITA margin increase reaching 13.0% for the full year. Cash flow and cash conversion was strong for the year, and we have a solid financial position that allow us to invest in future growth.

In the fourth quarter, organic order intake for the Group grew by 7% excluding the effects of our exit from tower internals in Wind. Service orders showed continued high growth in the quarter, up 14% organically.

Construction delivered again overall solid performance with order intake up 3% organically in the quarter. During the year we have focused heavily on product development and service. In the fourth quarter we launched a new product, STS 300, developed in partnership with PERI, providing scaffolders greater efficiency and increased workplace safety. The Group has a strong market position in hoists but significant growth potential within transport platforms and mast climbers, areas we will focus more on going forward. Service order intake for the division grew by 56% during the quarter.

Industrial continued to deliver strong organic order intake growth of 29% in the quarter with good development in all regions. We saw continued positive development for the new industrial elevator, ALIMAK SL-H, developed for the Cement customer segment, for emerging markets. We will continue to develop our customer and segment focused solutions and see solid demand in most geographies.

BMU reported organic order intake growth of 2% for the quarter driven by strong service order intake. I am glad to see that our efforts to improve earnings in the BMU division is gaining traction and delivering results in line with plan. To broaden our addressable market, we are now also increasing our efforts with our products for low and mid-rise buildings. As of January 1st, 2022, I have assumed the role as interim head of the division, and we will continue to drive our growth enhancing initiatives as well as improving cost efficiency. The division will be renamed Facade Access during the first quarter to better represent our solutions offering.

Wind continues to face challenging market conditions with an organic order intake decrease of -18% in the quarter. Impacted by our decision to exit tower internals, of which now most of it is done, but also due to a challenging Chinese market. We will continue to reduce cost to protect margins and explore further

service revenue opportunities. We have initiated a strategic review of the Wind division to explore future strategic alternatives – including a potential divestment. The decision is based on our view that the Wind division may have a more favourable development in another ownership structure going forward.

Revenues for the Group held up well during the fourth quarter despite continued global supply chain and logistics disruptions. Organic revenue increased by 10%, excluding the effects of our exit from tower internals.

Group earnings improved significantly, and we report a solid EBITA margin increase reaching 13.9% (9.2) in the quarter.

Set for profitable growth

We have a clear vision and strategic roadmap in place to capture the full value potential for Alimak Group based on our strong global position as a leading access solution provider. The updated financial and sustainability targets that we launched during the year reflect our strong ambition for sustainable profitable growth in the coming years.

We will continue to drive sustainable profitable growth in all divisions by focusing on our customers, product development, increasing service revenue, operational excellence and accelerating our M&A activities. Our most important asset is our people and I want to take this opportunity to thank all our employees for their dedication and efforts during the year. I am proud to be part of this team. We are well set for growth and further margin improvements in 2022 in a continued uncertain macro environment.

The Board of Directors proposes an ordinary dividend for 2021 of SEK 3.30 (3.00) per share.

FOURTH QUARTER

Order intake in the quarter increased by 8% to MSEK 912 (844) with an organic increase of 5%. Excluding the Tower Internals business in Wind that we are exiting, organic growth was 7%. Service orders showed a continued strong performance in the quarter, up 17% reported, 14% organically.

Revenue increased by 10% to MSEK 1,028 (933) with an organic increase of 7%. Excluding the Tower Internals business in Wind, organic growth was 10%. Revenue growth was solid in Construction, Industrial and for BMU. Wind decreased due to exiting tower internals and a challenging business climate in China.

EBITA for the quarter was MSEK 143 (86), corresponding to a margin of 13.9% (9.2). EBITA-margins improved in all divisions except Wind. Last year EBITA was affected by non-recurring expenses of MSEK -42.

Amortisation in the quarter amounted to MSEK 9 (9), largely related to the acquired businesses.

EBIT in the quarter was MSEK 135 (77).

The financial net amounted to MSEK -14 (-7). The interest net was MSEK -1 (-6), leases MSEK -1 (-2) and the remaining largely related to currency impact.

Tax expense for the quarter was MSEK 28 (21), corresponding to a tax rate of 23.3% (29.2).

Result for the period amounted to MSEK 92 (50) where the increase came from the higher operating result in 2021 and restructuring related cost of 42 MSEK in 2020. EPS increased to SEK 1.70 (0.92) for the quarter.

Cash flow from operations in the quarter was MSEK 139 (164) driven by continued strong EBITDA.

Net investments in tangible fixed assets in the quarter totalled MSEK 11 (5), of which MSEK 6 (0) was related to additions to the rental fleet.

Capitalised investments in intangibles amounted to MSEK 1 (3).

Net reduction of borrowings amounted to MSEK 51 (153).

JANUARY– DECEMBER

Order intake during the period amounted to MSEK 3,772 (3,761) with an organic increase of 2%. Excluding the tower internals business in Wind that we are exiting, organic growth increased by 5%.

Reported revenue was in line with last year MSEK 3,728 (3,740) with an organic increase of 1%. Excluding tower internals, the increase was 4%. The increase was driven by growth in Construction, BMU and service revenue. Revenue decreased in Industrial due to lower backlog at the beginning of the year and Wind decreased due to exiting tower internals and a challenging business climate in China.

EBITA for the period was MSEK 483 (319), corresponding to a margin of 13.0% (8.5). Compared to last year, strong improvement was achieved in three divisions. EBITA-margin was in line with 2020 for Wind division in spite of the revenue reduction.

Amortisation in the period amounted to MSEK 35 (41), largely related to the acquired businesses. The decrease in amortisation relates to customer relations from acquired businesses being fully amortized.

EBIT for the period was MSEK 448 (277).

The financial net amounted to MSEK -38 (-37) whereas interest net was MSEK -11 (-22), the impact from IFRS 16 was MSEK -5 (-8) and the remaining largely derived from currency impact.

Tax expense for the period was MSEK 102 (58) and the tax rate was 24.9% (24.1%).

Result for the period amounted to MSEK 307 (183) where the increase relates to the higher operating result and restructuring related cost of 77 MSEK in 2020. EPS increased to SEK 5.68 (3.37).

Cash flow from operations in the period was MSEK 646 (505) driven by high EBITDA and continued decrease in working capital of MSEK 122 (221).

Net investments in tangible fixed assets in the period totalled MSEK 63 (62). The majority of investments relate to additions in the rental fleet of MSEK 41 (36). The capitalised investments in intangibles for ERP and other IT systems amounted to MSEK 4 (15).

Net reduction of borrowings amounted to MSEK 191 (351).

Dividend of MSEK 162 (94) was paid out in May.

SIGNIFICANT EVENTS DURING THE REPORTING PERIOD JANUARY– DECEMBER 2021

Next step in the New Heights Programme

In October 2020, Alimak Group launched the New Heights programme, consisting of three steps 1. Establish the base, 2. Secure margin improvements and 3. Profitable growth. The first two steps of the programme are completed, and the Group will now enter the third step; Profitable growth.

As of January 1, 2021 a new organisation and subsequent reporting structure came into effect with four, customer centric divisions: BMU, Construction, Industrial, and Wind. As a consequence of this the reporting segments are changed compared to the Annual report 2020. A detailed description of the New Heights programme and the new organisation is found in the Annual Report 2020. The reorganisation in combination with restructuring resulted as planned in annual savings of around MSEK 60, with full effect as of H2 2021.

Management changes

On February 9, 2021, Alimak Group appointed Thomas Hendel as CFO, effective as of May 17, 2021. Thomas Hendel joined Alimak Group from the role as Deputy Chief Financial Officer of Saab Group, a position he has held since 2016. He has 30 years of experience from different financial and general management roles within Saab and ABB, including as Interim Chief Financial Officer at Saab between May and September 2020.

On March 12, 2021, Alimak Group appointed Salomeh Tafazoli as EVP Industrial division, effective as of June 1, 2021. Salomeh Tafazoli was previously Vice President Sales and Marketing EMEA at Snap-on Equipment, an American based company listed on NYSE. She has extensive experience from the automotive industry, working with both products and services, and has previously held various strategic and commercial roles within Volvo Group and Car-O-Liner Group.

Updated financial targets

On June 17, 2021, The Board of Directors of Alimak Group decided to update the financial targets and dividend policy to reflect the value creation potential identified as part of the New Heights Programme launched in October 2020. In addition, the Group has decided on a new sustainability target. The updated mid-term financial targets and dividend policy are:

Revenue growth target: 5-7%

The Group's mid-term target is to have an average annual revenue growth of 5-7% (previous target: achieve an average annual organic revenue growth of at least 6%).

EBITA-margin target: 14-16%

The Group's mid-term target is to reach an operating EBITA margin of 14-16% (previous target: achieve an operating EBITA margin of at least 15%).

Net Debt/EBITDA target: ~2.0x

The company will maintain an effective capital structure with a net debt of around 2.0x EBITDA over a cycle. The capital structure will be flexible and allow for strategic initiatives (unchanged).

Dividend policy: 40-60%

The Group has a target of paying a dividend of 40-60% of its net profit to its shareholders (previous target: The Company aims to pay its shareholders approximately 50% of its net profit for the applicable period in dividends).

Sustainability target:

Aim to reduce CO2-footprint with 30% cross our value chain by 2025 compared to 2019

Dividend for 2020

The Board of Directors proposed a dividend of SEK 2.00 (1.75) per share based on existing number of shares. In addition, the Board proposed an extra dividend of SEK 1.00. The proposed dividend was approved by the AGM and paid out in May.

Order Intake increased by 7%, up 2% organically, to MSEK 281 (262). The order intake growth was driven by equipment sales in Europe where we continue to see good activity in several countries. Service orders were lower in the quarter, particularly in Europe. To broaden our addressable market, we are increasing our efforts with products for low and mid-rise buildings and have already received orders for these products during the quarter.

Revenue increased by 33%, up 26% organically, to MSEK 329 (247). The sizable increase in revenues was driven by stronger equipment revenues in Europe and higher service revenues across all regions.

EBITA increased to MSEK 29 (-2), corresponding to a EBITA margin of 8.7% (-0.9%). The improved result was the result of higher volumes and lower costs year-over-year. We continue to drive our growth enhancing initiatives as well as improving cost efficiency. The division will be renamed Facade Access during the first quarter to better represent our solutions offering.

Order intake increased by 32%, up 29% organically, to MSEK 247 (187). Both new Equipment and Service order intake increased in the quarter. Americas in general and the US in particular were main contributors on the service side. The increase in new Equipment was mainly driven by higher order intake in Europe and China. In Europe, the increase is a result of the enhanced focus and strategic actions taken in the Marine segment with e.g., the relaunch of the ME (Marine Elevator) traction series, and for China it is a continued strong contribution from the new industrial elevator, developed for the Cement customer segment, for emerging markets. We will continue to develop our customer and segment focused solutions and see solid demand in most geographies.

Revenue increased by 11%, up 10% organically, to MSEK 272 (245). The increase was driven by both new Equipment and Service sales globally, which is a result of the strong order intake in both areas. The service side showed a good quarter for all product groups and particularly for spare parts.

EBITA increased to MSEK 53 (42), corresponding to a margin of 19.6% (17.1%). The continued strong EBITA margin was driven by higher volumes and continued good cost control.

Order intake decreased by 15% to MSEK 128 (152) in the quarter, down 18% organically, mainly impacted by the decision to exit tower internals. The decrease from tower internals was MSEK 20 and MSEK 82 YTD. Market demand in China continued to be soft in the quarter impacted by reduced government investment support. Service activity remained strong in most markets.

Revenue decreased by 25% to MSEK 139 (186), down 28% organically. The year-on-year decrease in revenue from tower internals in the quarter was MSEK 24 and MSEK 111 YTD.

EBITA decreased to MSEK 6 (21), corresponding to a margin of 4.7% (11.3%). The margin decrease was mainly due to the low volumes. We will continue to reduce cost to protect margins and we will explore further service revenue opportunities.

The Board and Group Management have initiated a strategic review of the Wind division to explore future

strategic alternatives – including a potential divestment. The decision is based on the view that the Wind division may have a more favourable development in another ownership structure going forward. The strategic review will be conducted in 2022.

Following the reorganisation that forms the base of the New Heights programme, the Group is since January 1, 2021 organised into four, customer centric divisions: Construction, Industrial, BMU and Wind. The subsequent reporting structure was also effective as of January 1, 2021 and was reported for first time in the interim report for the first quarter 2021. Numbers for periods before Q1 2021 are restated according to the new organisation.

Notes

NOTE 1. ACCOUNTING POLICIES

This interim report was prepared in accordance with IFRS, applying IAS 34, Interim Financial Reporting. The same accounting and valuation policies were applied as in the most recent annual report except for new and revised standards and interpretations effective from January 1, 2021. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the Alimak Group's performance. The definition of these can be found on the Group's homepage and a bridge from IFRS measures into non-IFRS measures is found on page 19 of this report.

Alimak Group AB is the Parent Company of Alimak Group. The Interim Report for the parent company has been prepared in accordance with the Annual Accounts Act and with the standard RFR 2 Reporting by a legal entity, issued by the Swedish Financial Reporting Board. The same accounting principles and methods of computation are followed in the interim financial statements as compared with the most recent annual report. Alimak Group AB is applying the exception from IFRS 16 allowed under RFR 2. Right-of-use assets or lease liabilities are not recognised.

A detailed description of the Groups risks and uncertainties can be found in the Annual report. There are no significant changes in risks during 2021.

Total	5.0

Level 1 - quoted prices in active markets for identical financial instruments

Level 2 - inputs other than quoted prices included in level 1 that are observable for the financial instrument, either directly (i.e. as prices) or indirect (i.e. derived from prices).

Level 3 – inputs for the financial instrument that are not based on observable market data (unobservable inputs)

Currency derivatives are valued at fair value by discounting the difference between the contracted forward rate and the rate that can be subscribed for on the balance sheet date for the remaining contract term.

NOTE 4. ACQUISITIONS

On July 1, 2021, Alimak Group acquired the shares of Cento Engineering Group, a UK BMU engineering and service provider with a large share of the service portfolio consisting of Manntech units.

Cento Engineering Group's revenue in 2020 amounted to MGBP 5.1 (approximately MSEK 60) and the company will become a part of Alimak Group's BMU division. The purchase price is not material relative to Alimak Group's market capitalisation.

In 2020 (Q3) Alimak Group made one minor acquisition, the assets of Verta Corporation, an American service provider with a large share of the portfolio consisting of Manntech units.

NOTE 5. ASSETS PLEDGED AND CONTINGENT LIABILITIES

As of December 31, 2021, the maximum potential future payments Alimak Group could be required to make under issued financial guarantees totalled MSEK 400.6 (December 31 2020, 361.6) of which MSEK 400.0 (December 31 2020, 361.0) refers to indemnity bonds for commitments to customers. Assets pledged totalled MSEK 32.0 (December 31, 2020, 24.5).

DEFINITIONS

Alimak Group presents certain financial measures that are not defined in the interim report in accordance with IFRS. Alimak Group believes that these measures provide useful supplemental information to investors and the company's management when they allow evaluation of trends and the company's performance. As not all companies calculate the financial measures in the same way, these are not always comparable to measures used by other companies. These financial measures should not be seen as a substitute for measures defined under IFRS. For definitions of key figures that Alimak Group uses, please visit
