

Alimak Group's Building Maintenance segment has signed an order in the US to a total value of approximately SEK 85 million

Alimak Group's Industrial Equipment Business Area has received an order for a facade access system for a skyscraper on Manhattan New York. The project is covering design, manufacturing and installation of high complexity Building Maintenance Units, BMU's, and the project will be finalized by 2019.

Alimak Group, with the brands CoxGomyl and Manntech is a global market leader in permanently installed building maintenance solutions, with over 50 years of experience of providing innovative and complete facade access solutions.

"We are very pleased to see a continued interest in, and recognition of Alimak's high complexity building maintenance solutions which are designed to support reliable, safe and efficient access to tall and complex buildings. With our deep knowledge and experience as global market leader in the BMU segment, we could meet the high-performance criteria's required by the customer", says Tormod Gunleiksrud, CEO Alimak Group.
