

## Bigge places MSEK 76 order with Alimak Group for construction hoists

**Alimak Group has received an order for construction hoists, with a total order value of approximately MSEK 76, as part of a volume programme with US rental company Bigge Crane and Rigging Co.**

The order includes configured construction hoists for the US market to support Bigge's expansion plans and will be delivered throughout 2019.

"Bigge is one of America's leading project services companies and has been a long and valuable customer to Alimak. Alimak Group divested its US Rental business to Bigge in 2016 and I am happy to continue our great partnership with them in the US and to see the continued demand for Alimak Group's market leading vertical access solutions for the construction sector", says Tormod Gunleiksrud, CEO Alimak Group.

"We continue to see growth in our hoist rental business. We attribute this growth to a strong economy, a quality offering lead by our industry leading sales, operations and service teams and a gain in market share. We are committed to supporting our customers while expanding into new markets. In order to fuel this growth, we have placed a large order of hoists to be delivered in 2019. At Bigge, we strive to deliver the perfect fleet. Alimak excels in all categories we measure to determine the perfect fleet asset. Alimak has a professional team and best-in-class product. With over 102 years in business, we look forward to the next 100 years with Alimak", says Weston Settlemier, CEO and President Bigge.
